Guadalajara, Mexico

## EMPLOYMENT

» freshout.us (2010 - present)

### Front End Engineer & Team Leader

- Front end development and back end integration for Web apps.
- Created and updated our internal guidelines for CSS and HTML writing.
- Object oriented and unobtrusive JavaScript for UX with JavaScript and libraries such as JQuery, Dojo, and YUI.
- UI design conversion to optimal, scalable and object oriented CSS.
- Semantic, light, accessible and standardized HTML.
- Problem solution design.
- Functional and technical specs development.

» idealista.com (2009- 2010)

### Front End Developer

Feature development and implementation for the website by working with agile methodology in a team formed by UX designers - Back Ends and Front Ends. This company is the leading real estate site in Spain with usability being the main focus.

» atrapalo.com (2007- 2009)

### Front End Developer

Accessible, semantic and standardized HTML and Object Oriented CSS with mastery degree resulting in a Cross-Browser compatible code for Atrapalo - the top Spanish online travel agent.
